

FLYING THE CIRCUIT AT TEDDERFIELD AIRPARK

Tedderfield Airpark is a privately owned and maintained airfield. Visiting Pilots Welcome

APPROACHING THE CIRCUIT

When approaching the airfield and you want to join the circuit, call your position and intentions from at least five miles out at 6500 ft at the current QNH. Initiate a descent to the point where you will join the circuit to end up at 6200 ft. (Hint: talk to other pilots in the circuit to establish which runway is in use or simply listen out).

APPROACH FROM THE NORTH

The approach from the North is from the North- Western side of the airfield, not directly over Hippo Quarry. The approach is shown on our map by the green line which would allow you to either join on a left-hand base for runway 11 | 13 or a right hand downwind for runway 29 | 31.

APPROACH FROM THE WEST

When approaching from the West, aim to be about one or two miles north of our downwind leg, which is directly above the R554. The approach is shown on our map by the orange line and allows you to either join on a left-hand base for runway 11 | 13 or a right hand downwind for runway 29 | 31.

APPROACH FROM THE EAST

When approaching from the East, aim to be one or two miles north of our downwind leg, which is directly above the R554. The approach is shown on our map by the yellow line and allows you to join either a right-hand base for runway 29 | 31 or a left-hand downwind leg for runway 11 | 13.

APPROACH FROM THE SOUTH

When approaching from the South, maintain 6500 ft and fly directly over the clubhouse and then descend to 6200 ft to join either a left downwind leg for runway 11 | 13 or a right downwind leg for runway 29 | 31. The approach is shown by the black line on our map.

BASIC RULES OF THE AIRFIELD

- All Flights to be conducted according to SACAA Regulations
- Visiting Aircraft to park on Northern side of runway , as signed posted " 30m from runway"
- No intersection Departures permitted
- No formation / Aerobatics in the circuit
